MEMO: ROSTER SIZE

Attention all Competing Teams:

The upcoming World Junior Baseball Championship will implement a change discussed during the Philadelphia Technical meetings held in 2008.

The roster size limits will see an increase from 18 players to 20 players.

The change is in response to concerns regarding a lack of physical recovery time that players have during a tournament format, with particular emphasis on protecting developing pitchers.

Please contact IBAF staff with any questions or concerns you may have relating to this tournament modification.

Regards,

Riccardo Fraccari
